MEMORANDUM TO: DCI

FROM: C-PY/OPC

SUBJECT: Brief for P.S.B. - Fourth Meeting, Thursday, 25 October 1951, 2:20 p.m., New State Department Building

Item I

A. At the meeting the Director will be given a revised draft of this paper, which will incorporate all changes suggested by the panel and which will note differences of opinion between State, Defense, and CIA.

The Director should call the Board's attention to such divergences.

B. Section V:

1. State has, or is in process of developing, a new policy (as yet undisclosed) with respect to the "Unification of Korea," which may alter the drift of this whole paragraph.

2. Note: V-B-2-c. State has strong reservations about this.

3. Note: V-C-3. This item was recommended by CIA and is objected to by State.

4. The Issue of "Fantastic Weapons:"

a. The Board will consider the advisability of having the P.S.B. Staff assume responsibility for producing a guidance paper on this subject. State is inclined to favor this procedure.

b. In any case, the Board will discuss where in the Government this question should be handled. If it is decided P.S.B. is the appropriate Agency, any substantive consideration should be undertaken only at the highest level, i.e., the members and alternates of the Board, owing to the extreme sensitivity of the information involved.
